Public Comment Form

Thank you for participating in this information session for Vancouver Airport Fuel Facilities Corporation's (VAFFC) Vancouver Airport Fuel Delivery Project.

ABOUT THIS INFORMATION SESSION: As the first stage of consultation, VAFFC is holding information sessions in February and March 2009 to provide an overview of the project. We want your input, your insights and your questions regarding the proposed new fuel delivery system for Vancouver International Airport (YVR).

Further public consultation sessions will be held later in the year to explain the proposed project in detail to the public, First Nations and other stakeholders prior to submitting an application to the BC Environmental Assessment Office for an Environmental Assessment Certificate.

ABOUT VANCOUVER AIRPORT FUEL FACILITIES CORPORATION: VAFFC is a not-for-profit company owned by a consortium of commercial airlines representing most of the domestic and international carriers serving YVR. VAFFC owns and operates fuel storage and distribution facilities at YVR. Similar fuel facility corporations operate at all of the major international airports across Canada.

ABOUT THE PROPOSED FUEL DELIVERY SYSTEM: VAFFC is proposing a new aviation fuel delivery system to YVR. The project consists of a marine terminal and fuel receiving facility at an existing industrial site on the south arm of the Fraser River, and an underground fuel pipeline connecting the facility and YVR.

The pipeline is expected to travel along existing transportation utility corridors in Richmond. The proposed 15-km pipeline corridor is preliminary and will be further refined. Several alignment options are under consideration and they will require input from the public, First Nations, stakeholders and regulatory bodies.

HOW WILL YOUR FEEDBACK BE USED? Feedback gathered through the information sessions, phone, fax and emails will be recorded and summarized in a Consultation Summary Report, which will be submitted to the BC Environmental Assessment Office. The Consultation Summary Report will also be posted on the project website at www.vancouverairportfuel.ca.

Please take the time to review the information presented, talk to project representatives at the information sessions, review the brochure, and fill out this comment form. Please drop the completed form in the box provided, or you can fill it out later and send it to us by email, mail or fax to:

Please check your answer and provide additional comments in the spaces provided.

1. How did you hear about the information session?

- Newspaper ads Media Word of mouth (friend, neighbour, etc.)
 Passing by Other (email, phone, etc.)

Comments:

2. How often do you travel through Vancouver International Airport?

- Never 1 to 5 times a year 5 to 10 times a year More than 10 times a year

Comments:

3. Describe how much you agree or disagree with the following statement: Meeting the growing fuel demands of Vancouver International Airport is important to ensure the airport runs efficiently. (Check one)

- Strongly agree Somewhat agree Somewhat disagree Strongly disagree

Comments:

4. Describe how much you agree or disagree with the following statement: A reliable fuel supply will help Vancouver International Airport remain a “gateway of choice” for airlines and that means continued jobs and economic benefits for our community, our region and our province. (Check one)

- Strongly agree Somewhat agree Somewhat disagree Strongly disagree

Comments:

5. Describe how much you agree or disagree with the following statement: Taking large fuel tanker trucks off our highways and roads will improve safety and reduce traffic. (Check one)

- Strongly agree Somewhat agree Somewhat disagree Strongly disagree

Comments:

6. Were you generally satisfied with the information made available about the Vancouver Airport Fuel Delivery Project?

- Yes Somewhat Not at all

Comments:

7. Did a project representative answer your questions to your satisfaction? If you had a concern, was it addressed?

- Yes Somewhat Not at all

Comments:

8. What was your overall impression of the Vancouver Airport Fuel Delivery Project information session?

- Very useful Somewhat useful Not useful at all

Comments:

9. How informative were the display panels?

- Very Somewhat Not at all No opinion

Comments:

10. Based on what you have learned about it so far, what is your preliminary opinion of the Vancouver Airport Fuel Delivery Project?

- I support it
- I don't support it
- No opinion

Comments:

11. As we continue the consultation process, what topics would you like more information about?
